

 **AIR-TEC**
BRIDGING AFRICA

Our mission is to exceed customer expectations through passionate commitment to safety, quality, reliability and effective resource utilisation.

OUR CORE BUSINESS: PROVIDING AIR-SERVICE FOR THE OIL INDUSTRY & FOR HUMANITARIAN AGENCIES

Profile

AIR-TEC sells and leases aircrafts, specializing in the LET L410/420 range. Our clients include regional airlines, Aid Agencies and NGO's, Oil Exploration companies and clients requiring smaller aircrafts.

The company is based in Port-Louis, Mauritius and also has branches in France, the Czech Republic and South Africa.

AIR-TEC offers a comprehensive service to its clients starting with economic studies to establish current needs and finishing with predictive models on future growth.

AIR-TEC employs competent pilots that understand the importance of customer service and who know how to perform and excel above the standard. These flight crews can be loaned to specific clients for specified periods, while training the client's own pilots in the specific aircraft concerned. AIR-TEC also offers training of technicians to service and maintain the aircraft. This means that clients are ultimately able to pilot and maintain their own aircraft, in the most cost-effective way.

AIR-TEC's goal is to provide its clients with first class services to ensure their operational success. Our wide array of fleet diversification (from the LET 410/420, Beech 1900D, Learjet 45 etc...) and custom made leases allow us to provide to various aircraft operators or clients a solution that works best.

AIR-TEC Africa specializes in regional turbo-prop ACMI services (Aircraft, Crew, Maintenance and Insurance) and unlike other lessors, we provide full operational support and assistance in order to help and create a capable, organized and successful operation. Through the ACMI leasing services, AIR-TEC will provide 'ready-to-use' aircrafts for our client need and success. We will provide the Aircraft, all required crew and will ensure that all required maintenance is efficiently and correctly done..

Our team of qualified and experienced engineers are dedicated to quality and excellence, thus keeping our fleet in excellent condition in order to provide our client with the most reliable and well maintained aircrafts available.

With over 15 years of industry experience within the regional turbo prop sector, AIR-TEC is able to offer a wide range of aviation services. Our expertise and hands-on knowledge of virtually every aspect involved within the aviation industry allows us to provide customized and tailor made solutions to custom fit each individual clients requirements. Our range of services includes but are not restricted to:

1. Aircraft Management & Accounting
2. Aircraft acquisition and financing (LET 410/420)
3. Aircraft Maintenance reserve management
4. Operation Planning and support

We provide full operational support & assistance so as to help
and create a capable, organized & successful operation

INTER-OCEAN AVIATION FINANCE CORPORATION: PROVIDING AVIATION FINANCING SOLUTIONS, MANAGEMENT SERVICES & OPERATING LEASES

Aircraft Financial Services

Over the past two decades Air-Tec has specialized in providing aviation financing solutions, aircraft management services and aviation related operating leases to its select niche of clients.

Through our own experience of operating our own fleet of aircraft we are well aware of the challenges and issues involved in managing a portfolio of aircraft. Financial structuring, Lease management, Redelivery, Accounting, Treasury, Financial Reporting, Interest Rate and Currency Risk Management Services are all critical to the running of a successful aviation operation. There is no substitute for experience and we are confident that our familiarity with the industry can assist you in the successful operation of your aviation business.

Mauritius with its low offshore company tax of between zero and three percent, its extensive double taxation agreement network, low infrastructure costs and absence of exchange control is ideally suited to the ownership of aviation related assets and in the planning of wealth management structures. Mauritius is also ideally situated geographically and is able to operate in time zones that can readily service clients from Australia to the West coast of Africa. Furthermore the highly advanced SAFE telecommunication network that links Europe to the Far East ensures that communication is easy, fast and relatively inexpensive.

AIR-TEC AFRICA: PROVIDING PURCHASE & LEASE CONTRACTS INCLUDING THE COMPONENTS OF AIRCRAFT, CREW, MAINTENANCE AND INSURANCE

Aircraft Operations

Our clients range from Regional Airlines, Humanitarian Aid Agencies, Freight, Oil exploration support, Air Ambulance, Government and NGO Contracts.

We provide purchase and lease contracts including any component of Aircraft, crew, maintenance and insurance.

Our aircraft operation and sales divisions are closely linked in order to introduce a new aircraft type into your fleet to meet your growing and changing requirements.

Through gaining a deep understanding of our clients requirements we are able to structure contracts that meet the clients specific needs.

L410 UVP-E20 and L420 aircraft have made a name for themselves on the continent with their remarkable "hot and high" performance, excellent STOL capabilities, durable structure and their ability to operate under extreme climatic conditions.

AIR-TEC AVIATION MAINTENANCE (PTY) LIMITED: OVER 15 YEARS OF AIRCRAFT MAINTENANCE EXPERIENCE

.....

Aircraft Maintenance

Air-Tec's maintenance department is at the heart of its operations. Located at Bethlehem airfield, South Africa our aircraft maintenance department oversees the day to day operations of 7 international outstations within the African continent in direct support of our L410 UVP-E20, L420, Beechcraft 90/200 & PAC 750XL fleet.

As an accredited Authorized Service Centre by the LET(AIRCRAFT INDUSTRIES a.s.) factory, our SACAA approved maintenance facility is fully geared up and structured to accommodate a large range of heavy base maintenance services which includes all major required inspections, exterior painting, full avionics upgrades and complete interior refurbishment.

With our over 15 years of experience and with our dedicated team of highly experienced engineers we aim at achieving a superior level of quality service while ensuring timely turnaround of aircraft.

AIR-TEC LET AIRCRAFTS: PROVIDING LET APPROVED MAINTENANCE & SERVICE FACILITIES, INCLUDING PURCHASE AND LEASING OPTIONS

.....

LET Aircraft Agency

Air-Tec Africa are the sole agents for the L410 UVP-E20 and L420 across most of Africa. This aircraft has made a name for itself on the continent with its remarkable "hot and high" performance, excellent STOL capabilities, durable structure and ability to operate under extreme climatic conditions.

The aircraft's consistent and reliable service in an exceptionally wide range of climate conditions from dusty and dry African savannas to rainy areas of Latin America and from sea level to "hot and high" mountainous destinations give many operators the competitive advantage that they are looking for.

With its unique undercarriage, the aircraft can operate virtually anywhere, needing just a few hundred meters of airstrip with a minimum strength of 6 kg/sq cm (85 lb/sq in), be it rain-soaked grass or gravel. The wide-bodied fuselage and best quality finish provide the highest standard of passenger comfort and allows maximum versatility and utilization of the aircraft including executive, cargo, maritime patrol, surveillance, ambulance and paratrooper operations.

In addition to providing LET approved maintenance and service facilities, Air-Tec Africa provides a range of purchase and leasing options giving clients easy access to this versatile aircraft.
